REAL TIME TRACKING

Instantly locate your consignment anytime, anywhere using this feature. User can compare route taken with shortest route available

PORTABLE AND RE-USABLE

Allows users to re-use the portable device after the last consignment reaches destination

LIGHT SENSORS

Triggers alert for attempt to open the door or try to break in to the container

GEO-FENCING

Geo-fencing triggers alerts to registered numbers when device moves from defined geographical area

GPS/LBS

Dual mode tracking for an accurate location

DOOR SENSORS

Triggers alerts if there is an authorized/unauthorized attempt to open the consignment door. Camera option captures images of personnel attempting to open the consignment

LONG BATTERY LIFE

Track your valuable consignments for days. Easy to charge and customizable battery life of 4-25 days
